

Stylish shower drain

California Faucets' StyleDrain Fleur features the fleur-de-lis pattern. It is available in a selection of more than 30 decorative finishes. In addition to its design, the drain provides a fast-draining capacity, handling water flow efficiently, even when body sprays, rain bars and multiple showerheads are used simultaneously. The StyleDrain drain body is priced separately. **California Faucets. www.californiafaucets.com**

Work boots

Magnum's Halifax 6.0 and 8.0 work boots feature: full-grain leather and a textile upper; durable, nonmetallic hardware with traditional lacing system; waterproof and breathable bootie membrane; moisture-wicking lining; protective ankle impact zone; and heavy-duty TPU toe-guard and molded rubber heel guard. They have a reflective ankle and heel zone; slip- and oil-resistant rubber outsole with toe traction; molded, lightweight EVA insole; compression-molded, impact-absorbing midsole; and a flexible, puncture-resistant plate. The 8.0 is available in Coffee and Black and the 6.0 is available in Black. **Magnum. www.us.magnumboots.com**

Radiant controls and valves

Viega introduces new products for hydronic and HVAC applications that allow for easy installation and system integration: 0-10V DC Powerhead provides short response times and self-calibrates every 24 hours; 0-10V DC Actuator provides short response times, which results in improved control response for radiant systems; and Zone Valve features easy installation with Viega ProPress and PEX Press adapters supplied. **Viega. www.viega.us**

Double-flanged check valve

Webstone's Isolator Double-Flanged Check Valve installs between the pump and Isolator Uni-flange Ball Valve, making it easy to add a check valve to any pump. Replacing the Isolator with Integral Check, this product covers any installation with two sizes, reduces SKUs on the shelf, saves space on the truck and is guaranteed for life. **Webstone. www.webstone.com**

Salt-free water conditioner

NuvoH2O is an effective citrus solution for salt-free, ecological water softening. The system has no wasted water, no drain, no electricity, no brine tank, calibration or soft water loop. It eliminates the need to haul bags of salt and simply requires a citrus cartridge to be changed twice a year. NuvoH2O's system protects and extends the life and performance of plumbing fixtures, pipe and appliances such as dishwashers, water heaters and fixtures. It was recently named Best of Show in the Indoor Living Products category at the 2014 International Builder's Show. **NuvoH2O. www.nuvowater.com**

Mobile workforce management

Xora's mobile workforce management solution, Xora StreetSmart, now includes Mileage Manager, a Device Status Log and new device battery level indicators. New alerts enable managers to proactively identify and resolve issues that arise with mobile devices in the field for maximum productivity. Managers have visibility into expected vs. actual routes by comparing odometer, GPS and Google-suggested routes. With these new capabilities, contracting companies can manage and analyze mileage costs, billing and reimbursements. **Xora. www.xora.com**
