

Visibility anytime you need it.

With the Xora StreetSmart mobile workforce management solution, organizations with employees in the field can instantly see their exact locations, plan their schedules, gather data from the field, and simplify other back-office processes like payroll. As the industry's leading mobile productivity solution, Xora StreetSmart helps more than 16 thousand organizations meet their productivity and service goals for about \$1 per day per user.

Xora StreetSmart runs on handsets ranging from rugged devices to smartphones and tablets available from our wireless carrier partners.

Data Exchange and Integration

Connect the valuable information collected and managed by Xora StreetSmart to your back office systems and other business applications with easy data exchange options.

On-Demand Integrated Support

Xora makes it easy for you to get expert help if you have a question about any of our solutions. Our Support Center offers helpful documentation or you can speak directly to a product expert, 24 x 7.

Gain Visibility

By knowing where your employees are and what they're doing, you'll make more informed decisions about how to dispatch your team, make them more productive, and ensure their safety.

Reduce Operational Costs

Reduce overtime and fuel costs with better dispatch decisions. Organizations using GPS technology consistently see fuel reductions of 5 to 10 percent and reduce overtime hours dramatically.

Easily Share Information

Field staff can easily fill out service forms and invoices, capture signatures, share photos, and scan credit cards and bar codes.

Simplify The Payroll Process

Eliminate time spent creating, verifying, and processing timesheets. Xora StreetSmart makes your payroll process automatic by tracking employee hours and passing them directly into your payroll system.

Improve Service Levels

Knowing where your employees are and how jobs are progressing helps you keep customers informed of employee arrival times and status information.

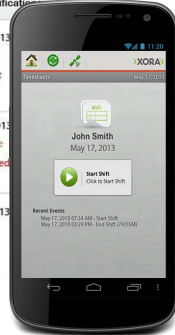

Get enterprise functionality without enterprise complexity

Xora StreetSmart seamlessly connects your organization, with a downloadable app for mobile devices, a cloud-hosted web management application and optional back office integration.

Worker Name + / Group	Worker Status	Stop-Travel	Last Update / Notification

Gain visibility into employees, jobs and locations

- View your employees, jobs, and locations on Google Maps.
- Generate reports that summarize where employees are, whether they're on shift, or how many hours they've worked this week.
- Stay informed when employees enter or leave a location, and record arrival and departure times.

Automate and validate payroll

- Enable employees to capture their hours, then submit them electronically.
- Validate hours worked with automatic date, time and location stamps.
- Schedule regular email delivery of payroll reports to your payroll team.

Capture accurate information

- Eliminate paperwork by using mobile forms to record odometer readings, inventory used, customer signatures, or employee expenses.
- Set alerts to monitor speeding, arrival times, pay hours, and more.
- Turn employees into business intelligence agents by using mobile forms to gather competitive information...even attach pictures.

Generate powerful summaries and reports

- View the complete details of any job from the web management application.
- Schedule reports to be delivered by email at any frequency, saving you time in getting information to the right people on time.
- Import reports into back-office systems to assess employee productivity, job costing, expense management, and more.
